

# STELLA A OTTO PUNTE MODULARE

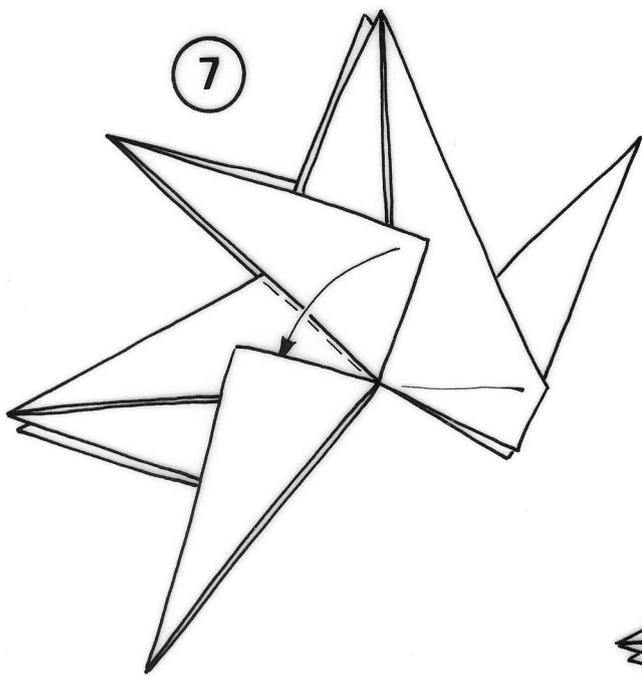

di Luigi Leonardi

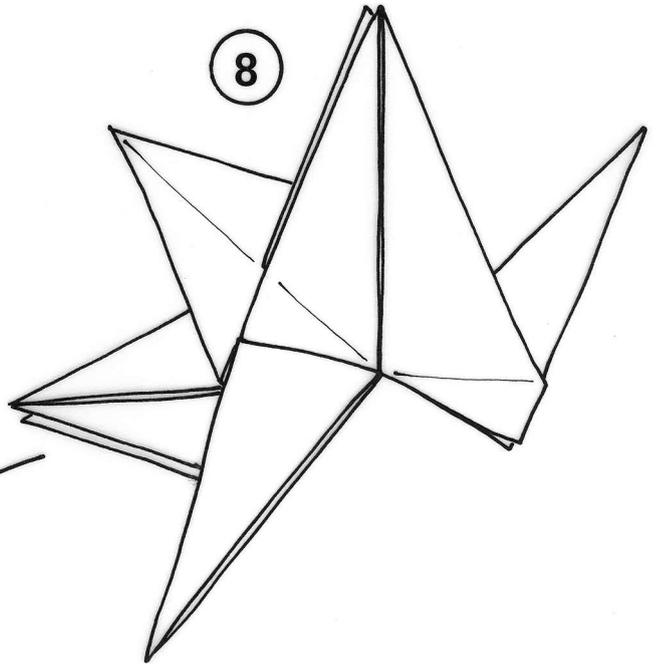

Modulo base.

Preparare quattro moduli.

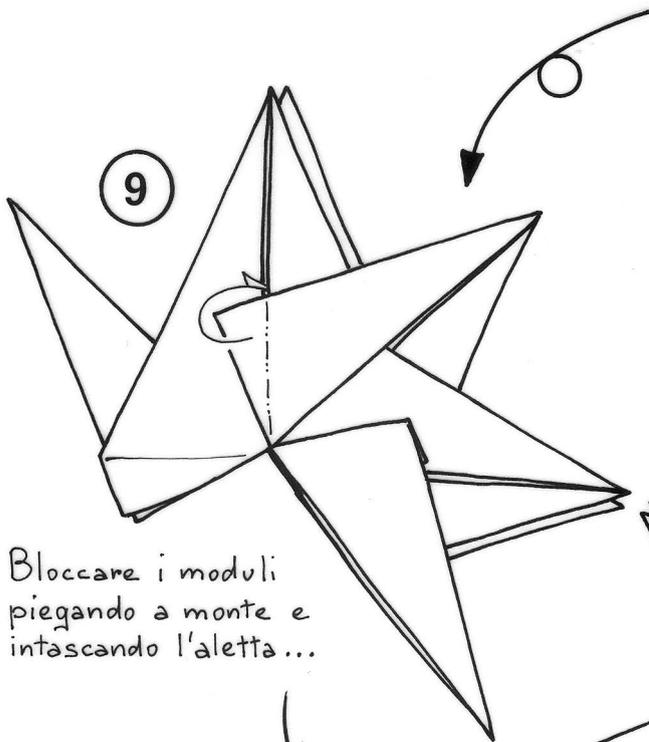

Inserire le due alette delle punte di destra di un modulo nelle tasche della punta di sinistra di un altro modulo.

7

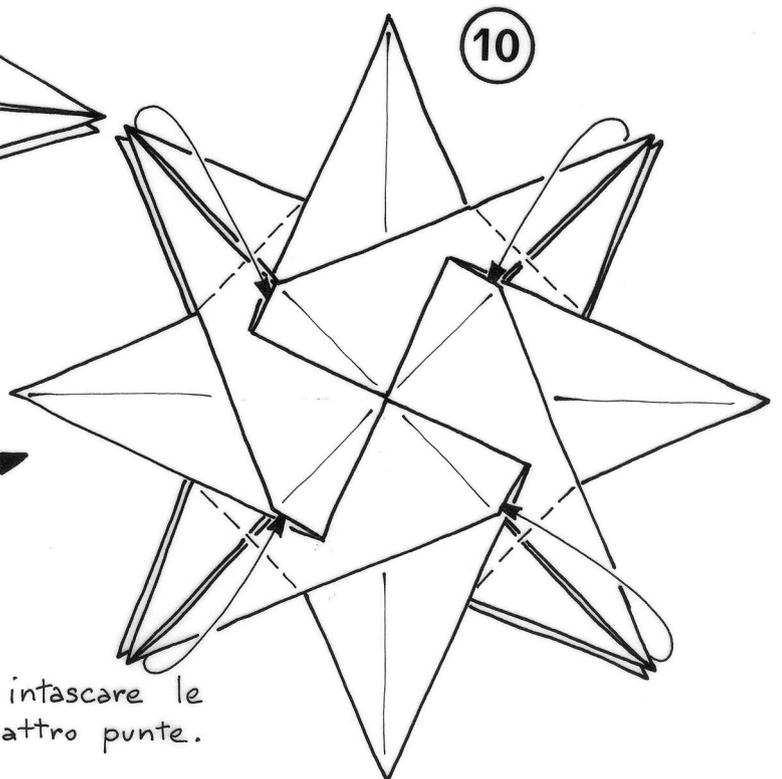

8

9

Bloccare i moduli  
piegando a monte e  
intascando l'aletta...

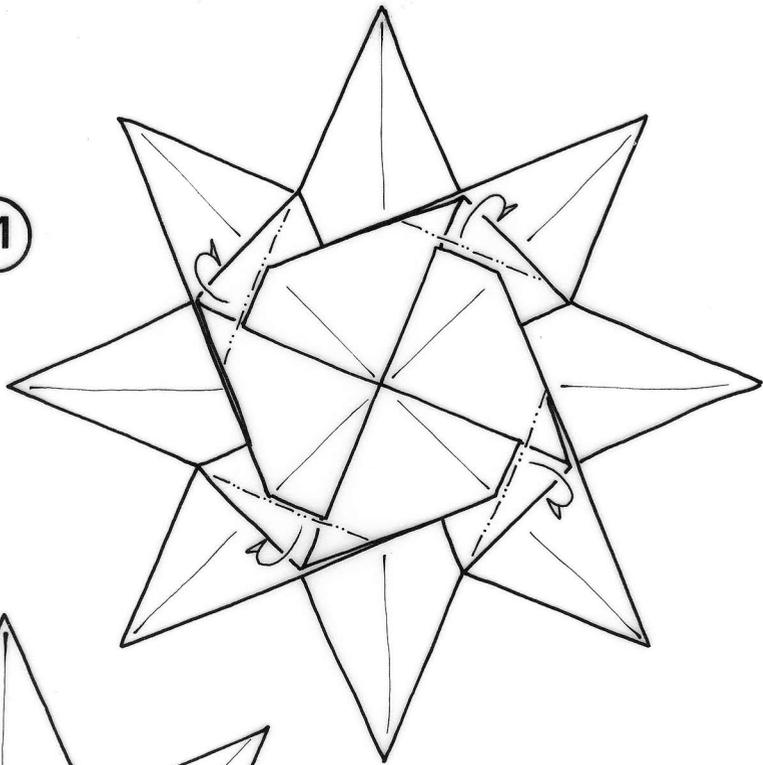

10

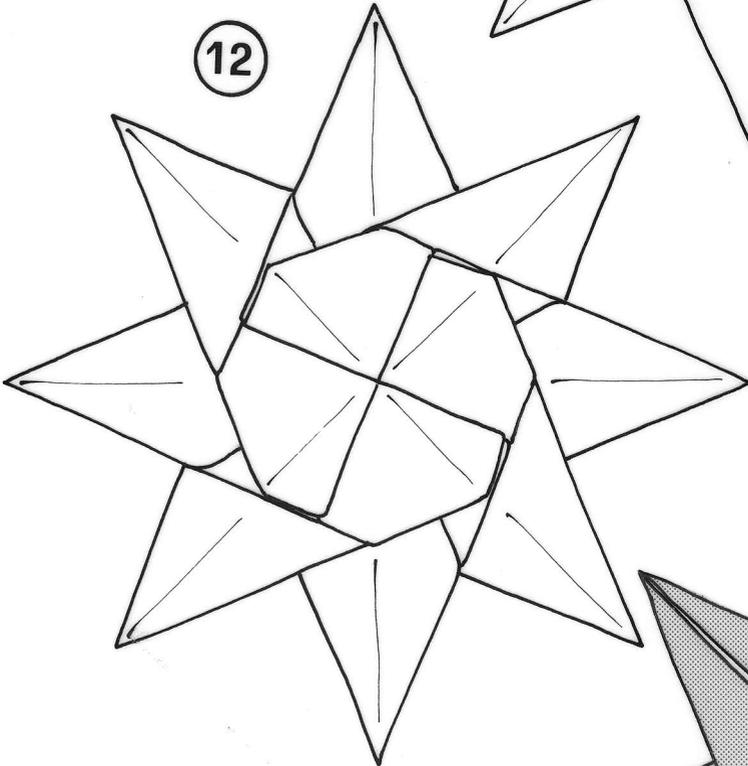

... Inserire anche gli  
altri due moduli, voltare  
il modello e...

... intascare le  
quattro punte.
